J. Sellers, Bancroft, Manager.
T. L. Lukens, Purchasing Agent.

William Sellers & Co., Incorporated.

Philadelphia May 5th, 1891.

Col. O. C. Bosbyshell,

Superintendent, United States Mint,

Philadelphia,

Dear Sir:--

Referring to the proposed belt tightener with two 20" Pulleys shown in the blue print handed your Mr. Samuel James this afternoon, we would now say we will furnish a Belt Tightener of this design, and erect the same complete, for One Hundred and Twenty Five Dollars, - - - - - (\$125.)

Successive Belt Tighteners from the same pattern will cost, erected, Ninety Five Dollars, - - - - - (\$ 95.) each;

thus, if three Belt Tighteners are ordered the net cost of each will be One Hundred and Five Dollars, - - - - - (\$105.)

Terms: Cash.

By inspection of the drawing you will notice that the device shown is a very substantial and complete arrangement and we think excellently adapted for the purpose intended, especially as it allows a very large amount of adjustment to the belt, and this is difficult to accomplish with any other form of tightener because

Bosbyshell, 2.

the extremely small opening in the floor allows but very little movement to the belt.

Hoping this may be satisfactory, we remain

Yours truly,

Wm. Sellers & Co., Incorporated,
